■ OBJECTIVE

To work as a Junior QA Analyst with a focus on growing to a Mid-Level position in an innovative company, where I can apply my knowledge in technology, automation, and programming logic to develop digital solutions, improve processes, and grow professionally within the technology field.

■ PROFESSIONAL EXPERIENCE

GL Qualidade de Software

QA Analyst | 2024 – Present

- Planning, documenting, and executing manual tests (functional and exploratory) ensuring delivery quality.
- Creating and maintaining test cases, scenarios, and validation evidence.
- Performing regression testing to ensure system stability after new implementations.
- Applying BDD with Gherkin to write clear scenarios aligned with business rules.
- Validating APIs using Postman, analyzing endpoint contracts and responses.
- Working in agile environments (Scrum/Kanban), participating in plannings, daily meetings, refinements, and retrospectives.
- Logging, tracking, and retesting defects alongside the development team.
- Supporting mobile testing (Android and iOS) and collaborating on automation initiatives using Robot Framework, Appium, Playwright, and Selenium.

■ PROFESSIONAL SUMMARY

Quality Assurance (QA) professional with 1 year of experience in agile projects (Scrum and Kanban), working with manual functional, exploratory, and regression testing. Experience in planning and executing test cases, API validation with Postman, and supporting BDD implementation. Knowledge of automation using Robot Framework, Appium (Android and iOS), Playwright, and Selenium, as well as experience with Continuous Integration (CI). Fluent in English and currently studying Systems Analysis and Development. Seeking a Junior QA opportunity to apply my knowledge and grow in the software quality field.

■ TECHNICAL SKILLS

• Agile Methodologies: Scrum, Kanban
• Languages: JavaScript (basic/intermediate), HTML, CSS
• Test Automation: Robot Framework, Appium (Android and iOS), Playwright, Selenium
• Manual Testing: Functional, exploratory, regression testing, test case writing and execution
• Soft Skills: Proactivity, strong communication, results-oriented mindset, teamwork

■ EDUCATION

• **Systems Analysis and Development – USJT (Expected graduation: August 2027)**

• **Fluent English – Wise Up**

■ CURSOS COMPLEMENTARES

• Robot Framework e Appium para Android e iOS – Udemy
• The Complete Playwright Course for Test Engineers and Devs – Udemy
• Testes funcionais com Selenium WebDriver: Do básico ao GRID – Udemy
• JavaScript for QA Engineers and SDETs – Udemy
• QA Foundations for Absolute Beginners: Software Testing – Udemy

■ CURRENT FOCUS

Currently deepening my knowledge in test automation, software quality best practices, and continuous integration. I have been focusing on technical growth with Robot Framework, Appium, and Playwright, while expanding my experience with Selenium for web automation.

I am also strengthening my foundation in JavaScript and API testing to gain greater technical confidence.

My goal is to consolidate my position as a Junior/Mid-Level QA and grow consistently in the software quality and automation field.
